

ICIEIS2024

6th International Conference on Informatics Engineering & Information Science

May 17-19, 2024 / Shenzhen, China / www.icieis.com

Welcome to ICIEIS2024

ICIEIS is a leading annual conference of informatics engineering and information science for researchers around the world. Known for its strong leadership team and dependable reputation, ICIEIS has a wide network of sponsors and supporters globally. The 2023 edition of this special conference has raised the bar again for the informatics and the engineering professional field, and every participant is invited to contribute on this exciting platform, sharing research findings and insights, generating new ideas and thus, hopefully, advancing the forefront of technology.

Organizer

中国科学院深圳先进技术研究院
SHENZHEN INSTITUTE OF ADVANCED TECHNOLOGY
CHINESE ACADEMY OF SCIENCES

Host

PASE
— PASHANHU —

Co-Organizer

大连海事大学

中国民航大学
Civil Aviation University of China

天津大学
Tianjin University

北京邮电大学
Beijing University of Posts and Telecommunications

Keynote Speakers

- Prof. Weihua Gui, Central South University, China
- Prof. Guanglin Li, SIAT-CAS, China
- Prof. Chunhua Yang, Central South University, China
- Prof. Meng Joo Er, Dalian Maritime University

Call for Papers

Submission Deadline: April 30, 2024

ICIEIS2024 welcomes articles and presentations in the areas of Information Engineering, Data Science, Energy Power, Industrial Control, Robotics, Medical Application and Artificial Intelligence related technologies. The conference particularly invites and encourages prospective authors to share their recent research work, findings, perspectives, and developments related to the above-mentioned topics.

Topics of interest for submission include but are not limited to:

Control Theory and Control Systems, Microelectronics, Biometrics, Internet of things, Circuit and system electronics, Adaptive learning, Neural networks and control, Fuzzy systems and control, Cybernetics, Data-based modelling, Data-based optimization, Artificial Intelligent Technology, Space robots, Medical robots, Bionic robots, Brain-like intelligence, Smart grid, Energy management, Deep learning, Decision making, Motion planning, Unmanned aerial vehicle, Real-time computing, Intelligent transportation

Call for Workshops

Interested organizers are invited to submit workshop proposals for half-day sessions in the topic areas listed in call for Papers of the conference. The proposal for a workshop should include the following items:

- Title
- Abstract
- Organizers
- A list of potential contributing authors with their affiliations, contact e-mails, and presentation titles (optional)

Publication & Index

Accepted papers will be

- published by prominent international publisher
- submitted to EI Compendex, Scopus, etc. for indexing

General Conference Chairs

Prof. Guanglin Li, SIAT-CAS, China

Prof. Chunhua Yang, Central South University, China

Prof. Zhengbin Wu, SIAT-CAS, China

Academic Committee Chairs

Prof. Er Meng Joo, Dalian Maritime University (DMU), China

Prof. Lianghong Wu, Hunan University of Science and Technology, China

Prof. Jing Na, Kunming University of Science and Technology, China

Organizing Committee Chairs

Prof. Huiyu Zhou, University of Leicester, UK

Prof. Limei Song, TianGong University, China

Prof. Yimin Zhou, SIAT-CAS, China

Prof. Yongkang Xing, Chongqing University, China

Conference Publication Chairs

Prof. Chao-Yang Chen, Hunan University of Science and Technology, China
